

FICARE 2017

A gold-colored logo for the 10th anniversary. It features the number '10' in a large, stylized font with a 'TH' superscript. Below the number is a ribbon banner with the word 'ANNIVERSARY' written on it.

November 16th to 18th
Sheraton WTC São Paulo
Av. das Nações Unidas, 12.559 - São Paulo

Scientific Program

www.ficare.com.br

Dear Colleagues,

Welcome to FICARE 2017!! Once again we have attempted to bring together a stellar group of faculty in very intense 3-day meeting to bring you the latest and the most exciting of rectal cancer!

In this 10-year anniversary of our meeting we will deal with several hot topic-subjects in rectal cancer management: everything from organ-preservation to pelvic exenteration, from open to transanal surgery and from modern pathology to last generation sequencing! Also, we have created multidisciplinary sessions to deal with real-cases in rectal cancer management: metastatic and non-metastatic disease! Finally, virtual reality with surgical cases using multiple cameras on-demand to show you step-by-step transanal total mesorectal excision!

No doubt that with such a distinguished faculty, sessions will be vivid and interesting.

Get ready for days of intense scientific activity, pleasant social activities and the opportunity to see friends and international guests again.

Welcome, sit back, relax and enjoy the ride!

Angelita Habr-Gama
President

Rodrigo Oliva Perez
General Secretary

08:00	<p>Registration/Welcome & Announcements Opening Lecture The Modern History of Rectal Cancer <i>Robert Madoff</i> Introduction: <i>Rodrigo Perez</i></p>
08:45	<p>Modern controversies in Rectal Cancer Management Moderator: <i>Carlos Carvalho</i></p> <p>1. Timing is everything... What is the ideal interval for assessment of tumor response/ surgery after CRT? Longer is better. <i>Gina Brown</i> Shorter is better. <i>Eric Rullier</i></p> <p>2. Lateral node dissection in rectal cancer - Is it time for a trial? <i>Miranda Kusters</i></p> <p>3. Extralevator APR is the preferred strategy for most distal locally advanced rectal cancers <i>Torbjorn Holm</i> No, it is not <i>Eric Rullier</i></p>
10:00 - 10:30	<p>Break <i>Exhibit visit</i></p>
10:30	<p>Neoadjuvant therapy or not? Moderator: <i>George Chang</i></p> <p>When should neoadjuvant or adjuvant CRT be OMITTED in rectal cancer? <i>Gina Brown</i></p> <p>Should neoadjuvant CRT be used for stage I rectal cancer? <i>Geerard Beets</i></p> <p>Less Chemotherapy and More Radiation? <i>Ane Appelt</i></p> <p>More Chemotherapy and Less Radiation? <i>Eric Van Cutsem</i></p> <p>Discussion</p>
11:30	<p>After Chemoradiation ... the saying of advanced radiology Moderator: <i>Geerard Beets</i></p> <p>Assessment of Tumor Response - The Role of functional MR <i>Regina Beets-Tan</i></p> <p>Tumor Regression Grades in the eyes of MR <i>Gina Brown</i></p>

	<p>PET/CT and PET/MR - What is around the corner... <i>Carlos Buchpiguel</i></p> <p>Discussion</p>
12:30	<p>Lunch Symposium: Complications in Colorectal Surgery From intraoperative bleeding to infections, fistulas, TPN and reoperative surgery Interactive Case Discussion <i>Rodrigo Oliva Perez, Guilherme Pagin São Julião, Victor Seid</i></p>
14:00	<p>Finally surgery... the most relevant session in rectal cancer surgery... ever!</p> <p>Total Mesorectal Excision at last for mid and distal rectal cancers... Moderator: <i>Dieter Hahnloser</i></p> <p>Open surgery is better... I knew it! <i>Robert Madoff</i></p> <p>The oppose view: are we ignoring the benefits of minimally invasive surgery? <i>John Monson</i></p> <p>Laparoscopic Surgery is better... regardless of the recent evidence... <i>Steven Wexner</i></p> <p>The oppose view: the pathological data is clear! <i>Roel Hompes</i></p> <p>Robotic Surgery is so much better... <i>George Chang</i></p> <p>The oppose view: Is there any real evidence? <i>Steven Wexner</i></p> <p>taTME is the solution! <i>Joep Knol</i></p> <p>The oppose view: mmmmm... Is this REALLY necessary for all TMEs? <i>Eric Rullier</i></p> <p>Discussion</p>
16:00 - 16:30	<p>Break</p>
16:30	<p>Videos to remember... Technical tips in avoiding complications... Moderator: <i>John Monson</i></p> <p>Lateral node dissection by laparoscopic surgery... preserving the crucial nerves and taking out the necessary nodes! <i>Tsuyoshi Konishi</i></p>

Thursday, November 16th

Minimally invasive surgery for T4 rectal cancer?

Paris Tekkis

Assessment of proximal colon viability - Technology of ICG perfusion or simple testing of the vascular arcade?

Steven Wexner

The robot does APR almost entirely from above

George Chang

Discussion

17:15

Total Mesorectal Excision: Open, Laparoscopic, Robotic or Transanal? The view of the creator...

Bill Heald

Introduction: Angelita Habr-Gama

Welcome Cocktail

Thursday 18:30

Casual Welcome Reception

Vivaldi Room – WTC Convention Center

Friday, November 17th

08:00 - 09:30

The other side of the moon in rectal cancer management

Moderator: Fabio Campos

Lateral node dissection improves local control in all extraperitoneal rectal cancer patients when lymph node size is ≥ 7 mm regardless of response to nCRT

Tsuyoshi Konishi

No it is not

Robert Madoff

Beyond TME ... How to deal with a mrCRM+ after nCRT?

Surgery is better.

Paris Tekkis

Additional therapy is required prior to surgery?

Eric Van Cutsem

Decision of final surgical resection (APR vs LAR) can be made intraoperatively

George Chang

No, it cannot...

Gina Brown

Radiological reassessment is not necessary after CRT if surgery is required for incomplete responses

Steven Wexner

Yes, it is ...

Regina Beets-Tan

Discussion

09:30

Functional Outcomes

Moderator: Nuno Figueiredo

Intersphincteric Resections and Fecal Incontinence - Are we telling the truth to our patients?

Eric Rullier

Functional outcomes after lateral node dissection - Are there any really significant consequences?

Tsuyoshi Konishi

Assessment & Treatment of LARS in Rectal Cancer

Soren Laurberg

10:00 - 10:30

Break

10:30 - 12:00

Transanal TME: The New Kid on the Block

Moderator: Sergio Araujo

Technical Steps

Joep Knol

Urethral Injuries

Albert Wolthuis

taTME for Abdominal Perineal Excision?? What the heck?

Roel Hompes

Oncological Outcomes

John Monson

The true drawbacks

Robert Madoff

Discussion

12:00 - 13:30 Lunch Symposium: Advanced Minimally Invasive Surgery in Rectal Cancer
Moderator: Bruna Vailati

Laparoscopic TME: The Solution for distal transection of the rectum with new surgical stapling devices - *Sergio Araujo*

Transanal TME: Anastomotic techniques - *Roel Hompes*

Synchronous Metastatic Disease (Rectum and Liver) amenable to surgical resection. The Role of Preoperative Chemotherapy - *Eric Van Cutsem*

Synchronous Laparoscopic Liver/Rectal Resection - When & How? - *Paulo Herman*

Discussion

14:00 - 16:00 The Complete Clinical Response issue
Moderator: George Chang

RT: Dose escalation to increase cCR rates

Ane Appelt

Consolidation Chemotherapy improves anything?

Eric Van Cutsem

Long-term outcomes with T2 and T3 cancers after extended nCRT

Angelita Habr-Gama

How to deal with incomplete responses and still provide organ preservation?

Fraser Smith

Local regrowths - Are they really salvageable?

Geerard Beets

Discussion

16:00 - 16:30 Break

16:30 Personalized Oncology

Moderator: Fernanda Capareli

Intratumoral Heterogeneity in Rectal Cancer

Rodrigo Oliva Perez

Liquid Biopsies in Clinical Practice

Anamaria Camargo

Personalized treatment strategies in metastatic disease

Eric Van Cutsem

Advanced pathology in rectal cancer - what is there outside of the checklist that may help in clinical decision management

Luanne Force

17:30 Selective Internal Radiation Therapy for the treatment of liver metastasis. A new kid on the block?

Felipe Nasser

Introduction: Joaquim Gama-Rodrigues

17:45 Post-operative rectal cancer surgery - New alternatives in the management of infectious complications

Case & Solutions

Rodrigo Perez, Guilherme Pagin São Julião, Claudio Penido

18:30 The most difficult cases... To the expert panel... Voting of the audience... Metastatic Rectal Cancer Case

Moderator: Guilherme São Julião

Case presentation: Challenging Rectal Cancer Case

Surgeon #1 *Robert Madoff*

Surgeon #2 *George Chang*

Radiation Oncologist: *Icaro Thiago de Carvalho & Ane Appelt*

Medical Oncologist: *Rene Gansl, Renata D'Alpino & Eric Van Cutsem*

Radiologist: *Gina Brown*

19:00 PM Adjourn

08:00 FICARE MDT/ Consultant's Corner
The best team in the world to solve the problem... non-metastatic rectal cancer

Case presentation: Challenging Rectal Cancer Case
Moderator: Rodrigo Perez

Surgeon #1 *Paris Tekkis*

Surgeon #2 *John Monson*

Radiation Oncologist: *Patricia Aguilar & Ane Appelt*

Medical Oncologist: *Eric Van Cutsem & Arthur Malzyner*

Radiologist: *Cinthia Ortega*

Workshop: MRI in Rectal Cancer

Gina Brown
The Royal Marsden NHS
Foundation Trust
Surrey, UK

Saturday, November 18th
08:00 – 10:00

Curitiba I Room – WTC Convention
Center

**09:00 Virtual reality in Unedited Surgical Videos
TATME in Belgium!**

Moderator: Arceu Scanavini Neto

7 concomitant cameras - High definition imaging
Joep Knol & Sami Chadi

10:00 - 10:30 Break

10:30 - 11:15 Local Treatment of Rectal CA - The best for last?
Moderator: João de Aguiar Pupo Neto

**Endoscopic ESD for superficial rectal tumors
Pit pattern evaluation: teaching the surgeon**
Tsuyoshi Konishi

Can MR surpass ERUS for the selection of patients for local excision?
Gina Brown

Local Excision upfront: When we should not perform TEMS?
Paris Tekkis

Discussion

11:15 - 12:00 Last but not least... Advanced stuff!
Moderator: Carlos Augusto Martinez

Technical Tips in indocyanin green evaluation - step by step
Luiz Romagnolo

After ELAPE....Mesh or flap?
Torbjorn Holm

Reconstruction options after pelvic exenteration
Paris Tekkis
